

Mizuho® Skull Base Instrumentation

- Slightly curved dissectors of various sizes
- Moderate curved sharp dissectors
- Blunt tip dull dissectors
- Microprobes feature atraumatic teardrop design, various angles available
- 100mm handles
- Fine caliber dissectors

Mizuho® Skull Base Instrumentation

Fukushima designed instrumentation for skull base dissections, tumor elevation, and aneurysm surgery.

07-820-00 Skull Base Instrument Tray

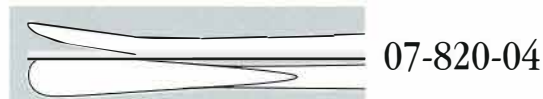

A-1 5mm Dissector, Sharp, Slight Curve

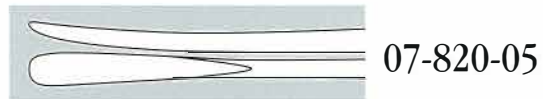

A-2 3.5mm Dissector, Sharp, Slight Curve

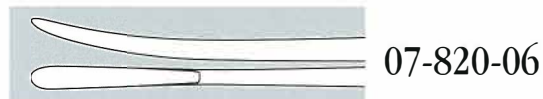

A-3 2.5mm Dissector, Sharp, Slight Curve

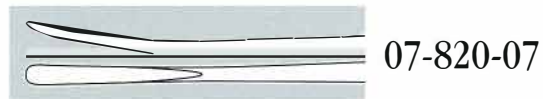

B-1 3.5mm Dissector, Sharp, Slight Curve

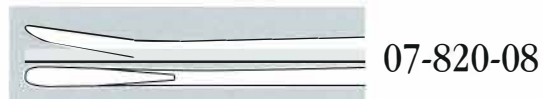

B-2 2.7mm Dissector, Sharp, Slight Curve

B-3 2.2mm Dissector, Sharp, Slight Curve

C-1 1.8mm Dissector, Sharp, Slight Curve

C-2 1.8mm Dissector, Sharp, Moderate Curve

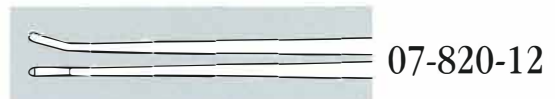

C-3 2.0mm Round Knife, 40° Angle

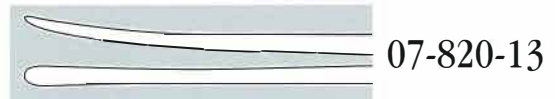

D-1 3.0mm Dissector, Dull, Slight Curve

D-2 2.2mm Dissector, Dull, Moderate Curve

D-3 1.8mm Dissector, Dull, Moderate Curve

1- 3mm Bayonet Probe, Teardrop Tip, Straight

10cm Working Length

1A- 3mm Bayonet Probe, Teardrop Tip, Straight

2- 3mm Bayonet Probe, Teardrop Tip, 15° Angle

3- 3mm Bayonet Probe, Teardrop Tip, 45° Angle

4- 3mm Bayonet Probe, Teardrop Tip, 80° Angle

5- Bayonet Probe, Teardrop Tip, Straight Malleable Shaft
